

The quickest access to the trail from I-70 is to come straight back south on Airport Road for 1.5 miles then make a left on Airpark Road after the Wendy's Bun Bakery.

Follow Airpark Road through the valley. When you get to the top of the hill make a left where the concrete slab goes across the road. Park in the field off of the dirt road.

Once you have your bikes off loaded follow the dirt road towards the woods and you will hit the trail. Make a left and you are on the loop. The field trails are mowed and the wooded portions are marked. The loop can be done in 45 minutes so you should have plenty of time to hit one of the fast food restaurants after one or two laps.
